About me

Interested in a software developer position where I can contribute with my technical/analytical skills acquired in my academic career, as well as in a self-taught way. I like to think of different ways to solve problems, so I am always willing to learn new things to find better solutions.

Education

Instituto Politécnico Nacional – Unidad Profesional Interdisciplinaria de Ingeniería y Ciencias Sociales y Administrativas

2016 – 2021

University - Bachelor's degree in "IT".

Instituto Politécnico Nacional – Centro de Estudios Científicos y Tecnológicos 9 "Juan de Dios Bátiz"

2012 – 2015

High School - Technical degree in "Programming".

Tecla Coding Academy

May – July 2021

Certification in Node.js backend (Express.js, SQL) working under SCRUM agile methodology

Experience

Java Developer - Gentera

August 2021 – Present

Support, configuration and development of web services in Spring Framework to connect different APIs (SOAP/REST) inside the organization. Mapping and documentation using Swagger/OpenAPI Specification and Postman. I also used Apigee to develop API proxies.

Internship - IPN CIITA Veracruz

February - September 2021

Development of a web page with other students to support tourism in the city of Papantla, Veracruz. Information was collected and processed to be displayed dynamically on the page.

Skills and competencies

- [Scrum Developer Certified](#)
- English B1
- Web development (HTML, CSS, JS, Bootstrap)
- Relational databases (queries, stored procedures, normalization)
- Backend development (API REST, Node.js, Java Spring Framework)
- Version control (Git)
